CONTENTS

No. 1 JANUARY 1987

EDITORIAL COMMENT

A New Look. *Lucille S. Hurley* 1

GUIDE FOR AUTHORS

Revised January 1987 2
Nomenclature Policy: Generic Descriptors and Trivial Names for Vitamins and Related Compounds 7
Nomenclature Policy: Abbreviated Designations of Amino Acids 15
Guidelines for Describing Diets for Experimental Animals 16

CRITICAL REVIEW

Involvement of Metallothionein in the Hepatic Metabolism of Copper. *Ian Bremner* 19

ARTICLES

Lipids

Effects of Dietary Animal and Plant Proteins on the Cholesterol Metabolism in Immature and Mature Rats. *Myung-Sook C. Park, Bhalchandra J. Kudchodkar and George U. Liepa* 30

Proteins and Amino Acids

Glycine Availability Limits Maximum Hippurate Synthesis in Growing Rats. *Gale P. Beliveau and Saul W. Brusilow* 36
Effect of Amino Acid Supplementation to Low Protein Diet on Brain and Plasma Levels of Tryptophan and Brain 5-Hydroxyindoles in Rats. *Hidehiko Yokogoshi, Tomoko Iwata, Kyoji Ishida and Akira Yoshida* 42

Carbohydrate and Fiber

Mineral Balances of Men and Women Consuming High Fiber Diets with Complex or Simple Carbohydrate. *Judith Hallfrisch, Andrea Powell, Cathleen Carafelli, Sheldon Reiser and Elizabeth S. Prather* 48
Quantitation of Microorganisms Associated with the Particulate Phase of Ruminal Ingesta. *W. Michael Craig, Glen A. Broderick and Bradford Ricker* 56
Response of Activity of Jejunal Disaccharidases and Pancreatic Amylase in Young and Middle-Aged Rats to a High Carbohydrate Diet. *William Thornburg, Judy Grimes, Toshinao Goda, Sergio Bustamante, Paul Pollack and Otakar Koldovský* 63

Vitamins

Potentiation of Ethanol-Induced Hepatic Vitamin A Depletion by Phenobarbital and Butylated Hydroxytoluene. *M. A. Leo, N. Lowe and C. S. Lieber* 70
Relative Amount and Ester Composition of Vitamin A in Rat Hepatocytes as a Function of the Method of Cell Preparation and of Total Liver Stores. *Ramiro O. Batres and James Allen Olson* 77

Minerals and Trace Elements

Zinc and Copper in Milk and Tissues of Nursing Lethal Milk Mutant Mice. *John E. Piletz, Bo Lönnerdal, Lucille S. Hurley, Wade Berry, Roger E. Ganschow and Harvey R. Herschman* 83
Effects of Dietary Selenite, Selenocystine and Selenomethionine on Selenocysteine Lyase and Glutathione Peroxidase Activities and on Selenium Levels in Rat Tissues. *J. T. Deagen, J. A. Butler, M. A. Beilstein and P. D. Whanger* .. 91
Effect of Selenium Depletion and Repletion on Plasma Glutathione and Glutathione-Dependent Enzymes in the Rat. *Kristina E. Hill, Raymond F. Burk and James M. Lane* 99

January, *continued*

Nutrient Interactions

Simulation of the Metabolism of Absorbed Energy-Yielding Nutrients in Young Sheep: Efficiency of Utilization of Acetate. *John L. Black, Margaret Gill, David E. Beever, John H. M. Thornley and John D. Oldham* 105

Simulation of the Metabolism of Absorbed Energy-Yielding Nutrients in Young Sheep: Efficiency of Utilization of Lipid and Amino Acid. *John L. Black, Margaret Gill, John H. M. Thornley, David E. Beever and John D. Oldham* 116

Nutrient Uptake and Transport

Digestibility of Boiled and Oven-Dried Cassava in Infants and Small Children. *Enrique Morales and George G. Graham* 129

Nutrient Requirements

Manganese Balance and Clinical Observations in Young Men Fed a Manganese-Deficient Diet. *B. J. Friedman, Jeanne H. Freeland-Graves, Connie W. Bales, Fares Behmardi, Roseann L. Shorey-Kutschke, Richard A. Willis, Jack B. Crosby, Paul C. Trickett and Stephen D. Houston* 133

Growth, Development and Aging

Enzyme Markers of Maternal Malnutrition in Fetal Rat Brain. *George E. Shambaugh III, Binita Mankad, Maritoni L. Derecho and Ronald R. Koehler* 144

Metabolism and Hormonal Regulation

Nutrient Homeostasis: Long-Term Interrelations Between Pancreatic Hormones, Blood Glucose and Dietary Wheat Bran in Men. *Bernard Beck and Christian Villaume* 153

Influence of Thyroid Status on Body Weight Gain, Food Intake and Serum Lipid Levels in Genetically Obese Zucker Rats. *Annie Loireau, Paul Dumas, Nicole Autissier and Raymond Michel* 159

Development of Gluconeogenesis from Various Precursors in Isolated Rat Hepatocytes during Starvation or after Feeding a High Protein, Carbohydrate-Free Diet. *Belkacem Azzout, Brigitte Bois-Joyeux, Marc Chanez and Jean Peret* 164

Nutrition and Immunology

Macrophage Function as Studied by the Clearance of ^{125}I-Labeled Polyvinylpyrrolidone in Iron-Deficient and Iron-Replete Mice. *Solo Kuvibidila and Salimata Wade* 170

Studies of Nutrition and Autoimmunity. Failure of Zinc Deprivation to Alter Autoantibody Production when Initiated in Disease-Established Mice. *Kimberly G. Vruwink, Carl L. Keen, M. Eric Gershwin and Lucille S. Hurley* 177

Nutrition and Gene Expression

Metallothionein Synthesis and mRNA Levels in Cultured Hepatocytes from Lethal Milk Mutant Mice. *John E. Piletz and Harvey R. Herschman* 183

Diet as an External Factor in the Expression of Scoliosis in a Line of Susceptible Chickens. *Carl Greve, Eric Trachtenberg, William Opsahl, Ursula Abbott and Robert Rucker* 189

Nutrition and Disease Interactions

Effect of Short Fasts on the Development of Tibial Dyschondroplasia in Chickens. *Hardy M. Edwards, Jr., and Poul Sorensen* 194

Effects of Dietary Calcium and Age on Parathyroid Hormone, Calcitonin and Serum and Milk Minerals in the Periparturient Dairy Cow. *Nancy W. Shappell, Joseph H. Herbein, Leonard J. Deftos and Robert J. Aiello* 201

Brief Communication

Differential Effects of Riboflavin and *RRR*-α-Tocopheryl Acetate on the Survival of Newborn RCS Rats with Inheritable Retinal Degeneration. *Curtis D. Eckhert* 208

Book Reviews 212

Issues and Opinions in Nutrition

Do Women Using Oral Contraceptive Agents Require Extra Zinc? *Janet C. King* 217

Should RDA Values be Tailored to Meet the Needs of Their Users? *James Allen Olson* 220

Letter to the Editor

Measurement of Iron Bioavailability Using the Hemoglobin Regeneration–Anemic Rat Assay. *Terence Hazell* 223

Reply to Letter of Dr. Hazell *Dennis T. Gordon and Josephine Miller* 224

Special Announcements 225

Announcements 226

No. 2 FEBRUARY 1987

ARTICLES

Commentary

The Cafeteria Diet — An Inappropriate Tool for Studies of Thermogenesis. *Barbara J. Moore* 227

Lipids

Effect of Maternal Dietary Linoleic Acid and *trans*-Octadecenoic Acid on the Fatty Acid Composition and Prostaglandin Content of Rat Milk. *Margaret Ann Wickwire, Margaret C. Craig-Schmidt, John D. Weete and Sam A. Faircloth* 232

Proteins and Amino Acids

Lymphoid Organ mRNA Translatability in Rats: Effect of Protein Energy Undernutrition in Early Life. *Uma S. Srivastava, Manohar L. Thakur, Pradeep K. Majumdar, Gopal M. Bhatnagar and Prakash C. Supakar* 242

Pancreatic Response to Long-Term Feeding of Soy-Protein Isolate, Casein or Egg White in Rats. *B. Diane Richter and Barbara Olds Schneeman* 247

Carbohydrate and Fiber

Intestinal Structural Changes in African Green Monkeys after Long Term Psyllium or Cellulose Feeding. *Inge Paulini, Tara Mehta and Ann Hargis* 253

Metabolizable Energy in Humans in Two Diets Containing Different Sources of Dietary Fiber. Calculations and Analysis. *Helen Göranzon and Elisabet Forsum* 267

Utilization of Intravenously Administered Glycogen by Young Pigs. *Dean W. Andersen, Lewis D. Stegink, L. J. Filer, Jr. and A. E. Applebaum* 274

Apparent Inability of Channel Catfish to Utilize Dietary Mono- and Disaccharides as Energy Sources. *Robert P. Wilson and William E. Poe* 280

Vitamins

Modulation of the Flavin-Containing Monooxygenase in Guinea Pigs by Ascorbic Acid and Food Restriction. *Joanne I. Brodfuehrer and Vincent G. Zannoni* 286

Effect of Dietary Ascorbic Acid Intake on Tissue Vitamin C in Mice. *Constance S. Tsao, Ping Y. Leung and May Young* 291

Effect of Exercise on Riboflavin Status of Rats. *Kay E. Lepisto Hunter and Pirkko R. Turkki* 298

Minerals and Trace Elements

Alterations of Pancreatic Digestive Enzyme Content in the Manganese-Deficient Rat. *Patsy M. Brannon, Victoria P. Collins and Murray Korc* 305

Accumulation and Metabolism of Iron-Dextran by Hepatocytes, Kupffer Cells and Endothelial Cells in the Neonatal Pig Liver. *Thomas J. Caperna, Mark L. Failla, Norman C. Steele, and Mark P. Richards* 312

Absorption of Zinc from Soy Protein Meals in Humans. *Brittmarie Sandström, Barbro Kivistö and Åke Cederblad.* 321

Nutrient Requirements

Growth of Juvenile White Sturgeon (*Acipenser transmontanus*) Fed Different Purified Diets. *Silas S. O. Hung, Brendan J. Moore, Clark E. Bordner and Fred S. Conte* 328

Maintenance Nitrogen Requirements and Intestinal Microorganisms in Rats. *W. Allen Nipper, Wise Burroughs and Allen Trenkle* 335

Growth, Development and Aging

Growth Retardation Induced in Rat Fetuses by Maternal Fasting and Massive Doses of Ergocalciferol. *Fumio Ariyuki* 342

Lipoprotein Lipase Activity in Skeletal Muscle and Brown Adipose Tissue of Pregnant and Lactating Rats. *Odette Champigny and Yvonne Hitier* 349

Effects of Long-Term Moderate Food Restriction on Growth, Serum Factors, Lipogenic Enzymes and Adipocyte Glucose Metabolism in Lean and Obese Zucker Rats. *Margot P. Cleary, Susan Muller and Susan Lanza-Jacoby* 355

Influences of Dietary Restriction and Age on Liver Enzyme Activities and Lipid Peroxidation in Mice. *Akio Koizumi, Richard Weindruch and Roy L. Walford* 361

Metabolism and Hormonal Regulation

Iodothyronine 5′-Deiodination in Rats Fed Low Protein Diets: Lack of Correlation with Energy Balance.. *F. Bradley Hillgartner and Dale R. Romsos* 368

Nutrition and Gene Expression

Genetic Differences in Effects of Food Restriction on Aging in Mice. *D. E. Harrison and J. R. Archer* 376

February, *continued*

Nutrition and Disease Interactions

Reversal of Obesity in the Genetically Obese fa/fa Zucker Rat with an Ephedrine/Methylxanthines Thermogenic Mixture. *A. G. Dulloo and D. S. Miller* 383

Nutrition and Physical Activity

Beneficial Effects of Exercise on Growth of Rats During Intermittent Fasting. *Kazuko Sakamoto and Katharine K. Grunewald* 390

Book Reviews 396

Issues and Opinions in Nutrition

Trypsin Inhibitors: Potential Concern for Humans? *B. D. Roebuck* 398
Nutritional Epidemiology and National Surveys. *Catherine E. Woteki, Ronette R. Briefel and Christopher Sempos* . 401

Letters to the Editor

Effects of Hydrophilic Fiber Sources in Dry Rat Diets. *Ian T. Johnson* 403
Reply to the Letter of Dr. Johnson. *Barbara J. Struthers* 405
The Effect of Dehydroepiandrosterone on Body Weight Gain. *Arthur G. Schwartz and Margot P. Cleary* 406
Reply to Letter of Drs. Schwartz and Cleary. *Joseph P. Casazza, Walter T. Schaffer and Richard L. Veech* 407

Announcements 408

No. 3 MARCH 1987

BIOGRAPHICAL ARTICLE

Herman James Almquist (1903–): Biographical Sketch. *Thomas H. Jukes* 409

SPECIAL ARTICLE

Recollections of Nutrition and the Chemical Environment. *Daphne A. Roe* 416

SYNOPSIS

Nutrition and Metabolism in Spaceflight. *Philip L. Altman and John M. Talbot* 421

ARTICLES

Lipids

In Vivo Lipogenesis of Genetically Lean and Fat Chickens: Effects of Nutritional State and Dietary Fat. *Ali Saadoun and Bernard Leclercq* 428

Vitamins

Synthesis of Retinol-binding Protein and Transthyretin in Yolk Sac and Fetus in the Rat. *David Sklan and A. Catharine Ross* 436
Effects of Acute and Chronic Ethanol Ingestion on Pantothenate and CoA Status of Rats. *Beth C. Israel and Colleen M. Smith* 443
Possible Role of Acetyl-CoA in the Inhibition of CoA Biosynthesis by Ethanol in Rats. *Colleen M. Smith, Beth C. Israel, Julia Iannucci and Kathleen A. Marino* 452
Influence of Dietary Vitamin E on Nutritional Pancreatic Atrophy in Selenium-Deficient Chicks. *M. E. Whitacre, G. F. Combs, Jr., S. B. Combs and R. S. Parker* 460
Clarification and Quantitation of Primary (Tissue) and Secondary (Microbial) Catabolites of Riboflavin That Are Excreted in Mammalian (Rat) Urine. *Jane L. Chastain and Donald B. McCormick* 468

Minerals and Trace Elements

Bioavailability to Rats of Iron in Six Varieties of Wheat Grain Intrinsically Labeled with Radioiron. *William A. House and Ross M. Welch* 476
Effects of Starvation and Refeeding on Tissue Zinc, Copper and Iron in Turkey Poults. *Mark P. Richards, Robert W. Rosebrough and Norman C. Steele* 481

March, *continued*

Zinc Deficiency in Rats Reduces the Vasodilation Response to Bradykinin and Prostacyclin. *Jimmy D. Browning, Philip G. Reeves and Boyd L. O'Dell* 490
Influence of Dietary Magnesium on Fluoride Bioavailability in the Rat. *Florian L. Cerklewski* 496

Nutrient Interactions

Effects of Level and Saturation of Fat and Iron Level and Type in the Diet on Iron Absorption and Utilization by the Rat. *Phyllis E. Johnson, Henry C. Lukaski and Thad D. Bowman* 501
Nutritional Value and Safety in Mice of Proteins and Their Admixtures with Carbohydrates and Vitamin C after Heating. *Mendel Friedman, Michael R. Gumbmann and I. Irving Ziderman* 508
Leucine Excess and Niacin Status in Rats. *Nancy E. Cook and Kenneth J. Carpenter* 519

Nutrient Uptake and Transport

Evidence for Facilitated Transport of Biotin by Hamster Enterocytes. *Jacques Gore and Claude Hoinard* 527

Growth, Development and Aging

Effect of Fasting on Amino Acid Metabolism by Lactating Mammary Gland: Studies in Women and Rats. *Juan R. Viña, Inmaculada R. Puertes, Argimiro Rodriguez, Guillermo T. Saez and José Viña* 533
Energetic Efficiency of Protein and Fat Deposition in Mice with a Major Gene for Rapid Postweaning Gain. *Jean F. Bernier, C. Chris Calvert, Thomas R. Famula and R. Lee Baldwin* 539

Metabolism and Hormonal Regulation

Metabolism of Cysteine and Cysteinesulfinate in Rat and Cat Hepatocytes. *James de la Rosa, Marie R. Drake and Martha H. Stipanuk* 549
Effects of Fructose, Levamisole and Vanadate on Insulin Action in Rat Adipose Tissue. *Shirley R. Blakely, Abiodun O. Akintilo and Richard H. Pointer* 559

Nutrition and Immunology

Impaired Natural Killer Cell Activity in Iron-Deficient Rat Pups. *Adria Rothman Sherman and John F. Lockwood* 567

Nutrition, Pharmacology and Toxicology

Effects of Methionine Deficiency and Ethanol Ingestion on Acetaminophen Metabolism in Mice. *Marla M. Reicks and John N. Hathcock* 572
Effects of 2,3,7,8-Tetrachlorodibenzo-*p*-Dioxin (TCDD) in the Lactating Rat on Maternal and Neonatal Vitamin A Status. *Helen Håkansson, Fredrik Waern and Ulf G. Ahlborg* 580

Nutrition and Disease Interactions

Influence of Prior Dietary Protein Intake on Metabolism, DNA Binding and Adduct Formation of 7,12-Dimethylbenz[*a*]anthracene in Isolated Rat Mammary Epithelial Cells. *Keith W. Singletary and John A. Milner* 587

Nutrition and Physical Activity

Preexercise Feedings of Glucose, Fructose or Sucrose: Effects on Substrate Depletion in Rats. *Elizabeth E. Addington and Katharine K. Grunewald* 593

BOOK REVIEWS

Food and Nutrition: Customs and Culture. Paul Fieldhouse. *Reviewed by L. Grivetti* 598
The History of Scurvy and Vitamin C. Kenneth J. Carpenter, ed. *Reviewed by Richard R. Vilter* 599

ISSUES AND OPINIONS IN NUTRITION

Human Folate Requirements. *Ann M. Reisenauer and Charles H. Halsted* 600

SYMPOSIUM

Interaction of Nutrition with Endocrinology on Egg Formation by the Hen. *Joseph H. Soares, Jr.* 603
Control of Energy Balance During Egg Production in the Laying Hen. *Colin G. Scanes, Robert Campbell and Paul Griminger* 605
Protein Requirement, Egg Formation and the Hen's Ovulatory Cycle. *Edwin T. Moran, Jr.* 612
Calcium Logistics in the Laying Hen. *Robert J. Etches* 619

Announcements 629

No. 4 APRIL 1987

COMMENTARY

Calcium Intake and Skeletal Integrity: Is There a Critical Relationship? *Robert Marcus* 631

SYNOPSIS

Analysis of Vitamin A Data from the Health and Nutrition Examination Surveys. *Susan M. Pilch, ed.* 636

ARTICLES

Lipids

Time Course of Changes in Rat Serum Apolipoproteins during the Consumption of Different Low Protein Diets Followed by a Balanced Diet. *Malika Meghelli-Bouchenak, Micheline Boquillon and Jacques Belleville* 641
Effects of Dietary Fiber, Carbohydrate, Lipid and Protein Levels on Serum and Liver Lipids in Rats. *Janice R. Stewart, E. Beth Fryer and Holly C. Fryer* 650
Digestibility of Cocoa Butter and Corn Oil and Their Influence on Fatty Acid Distribution in Rats. *Joan L. Apgar, Carol A. Shively and Stanley M. Tarka, Jr.* 660
Rapid Induction of Essential Fatty Acid Deficiency by Intragastric Infusion of Triolein-Supplemented Total Parenteral Nutrition Solutions: Evidence of Increased Hepatic Cholesterol Esterification in the Rat. *Denise M. Ney, Vincent A. Ziboh and Barbara O. Schneeman* 666

Proteins and Amino Acids

Alteration in the Ribonucleic Acids in Rat Liver Induced by a Methionine-Free Total Parenteral Nutrition Solution. *Shozo Aoi, Long-Thung Wen, Tokuo Kuwahata and Kinji Tsukada* 673
Effect of a Low Protein Diet on Bile Flow and Composition in Rats. *Lita Villalon, Beatriz Tuchweber and Ibrahim M. Yousef* 678
Protein Malnutrition and the Function and Fluidity of the Intestinal Microvillus Membrane in Growing Rats. *Laurie Livshin, Shoshana Mokady and Uri Cogan* 684

Carbohydrate and Fiber

The Disaccharide Effect of Sucrose Feeding on Excretion of Intravenously Injected [1,2-^{3}H]Aldosterone and Conjugated Glucuronic Acid in Normotensive Rats. *Richard A. Ahrens, Huan-Chi Hsu, Soon S. Kim, James P. Saunders and Larry W. Douglass* 689

Vitamins

Variation in Retinol Utilization Rate With Vitamin A Status in the Rat. *Michael H. Green, Joanne Balmer Green and Kevin C. Lewis* 694

Minerals and Trace Elements

Effects of the Antituberculous Drug Ethambutol on Zinc Absorption, Turnover and Distribution in Rats Fed Diets Marginal and Adequate in Zinc. *Alison B. King and Ruth Schwartz* 704
Changes in Dietary Zinc Result in Specific Alterations of Metallothionein Concentrations in Newborn Rat Liver. *Karen R. Gallant and M. George Cherian* 709
Mineral Utilization by Rats Fed Various Commercially Available Calcium Supplements or Milk. *J. L. Greger, Catherine E. Krzykowski, Reem R. Khazen and Connie L. Krashoc* 717
Relative Bioavailability of Seleno-Compounds in the Lactating Rat. *Anne M. Smith and Mary Frances Picciano* 725
The Effect of Progressive Selenium Deficiency on Anti-Glutathione Peroxidase Antibody Reactive Protein in Rat Liver. *Simon A. B. Knight and Roger A. Sunde* 732

Nutrient Interactions

Effect of Beef Fat on DMH-Induced Colon Tumorigenesis: Influence of Rat Strain and Nutrient Composition. *Kathleen M. Nauss, Doug Bueche and Paul M. Newberne* 739

Growth, Development and Aging

Diurnal Regulation of Milk Lipid Production and Milk Secretion in the Rat: Effect of Dietary Protein and Energy Restriction. *Murray R. Grigor and Mary P. Thompson* 748
The Neonatal Piglet as a Model for Human Neonatal Carnitine Metabolism. *Janet K. Baltzell, Fuller W. Bazer, Stanley G. Miguel and Peggy R. Borum* 754

April, *continued*

Metabolism and Hormonal Regulation

Hormonal Responses to Protein Restriction in Two Strains of Chickens With Different Growth Characteristics. *Thomas J. Lauterio and Colin G. Scanes* ... 758

Nutrition and Immunology

The Effect of Vitamin C Nutriture on Complement Component C1q Concentrations in Guinea Pig Plasma. *Carol S. Johnston, William P. Kolb and Betty E. Haskell* ... 764

Nutrition and Gene Expression

Protein Synthesis in Mammary Acini Isolated from Lactating Rats: Effect of Maternal Diet. *Arie Geursen, Alan Carne and Murray R. Grigor* ... 769

BOOK REVIEWS

Community Nutrition. Jessie Craig Obert. *Reviewed by Louis Evan Grivetti* ... 776
Nutritional Needs and Assessment of Normal Growth. Michael Gracey and Frank Falkner, eds. *Reviewed by George G. Graham* ... 777

LETTERS TO THE EDITOR

The Variability of Metabolizable Energy Estimates. *Mark Wolynetz* ... 779
Reply to the Letter of Dr. Wolynetz. *Gene M. Pesti and Glenn O. Ware* ... 781
Guidelines for Body Weight in Relation to Height. *Sidney Abraham* ... 782

SYMPOSIUM

Metabolic Aspects of Calcification in Avians. *Joseph H. Soares, Jr.* ... 783
Role of Epiphyseal Cartilage in Endochondral Bone Formation. *Roland M. Leach, Jr. and Carol V. Gay* ... 784
Calcium Dynamics: A Model System Approach. *Shmuel Hurwitz, Svetlana Fishman and Hovav Talpaz* ... 791
Studies on the Vitamin D Endocrine System in the Avian. *Anthony W. Norman* ... 797
Renal Regulation of Avian Calcium and Phosphorus Metabolism. *Robert F. Wideman, Jr.* ... 808

Announcements ... 816

No. 5 MAY 1987

CRITICAL REVIEW

The Secular Trend in Size and Maturational Timing and Its Implications for Nutritional Assessment. *Stanley M. Garn* ... 817

ARTICLES

Lipids

Dietary n-3 Polyunsaturated Fatty Acids: Rate and Extent of Modification of Fatty Acyl Composition of Lipid Classes of Mouse Lung and Kidney. *Joy E. Swanson, J. Mark Black and John E. Kinsella* ... 824

Proteins and Amino Acids

Effect of Environmental Temperature on Energy Balance and Thermogenesis in Rats Fed Normal or Low Protein Diets. *Nancy J. Rothwell and Michael J. Stock* ... 833

Carbohydrate and Fiber

Beneficial Effect of Wheat Germ on Circulating Lipoproteins and Tissue Lipids in Rats Fed a High Fat, Cholesterol-Containing Diet. *Denis Lairon, Christiane Lacombe, Patrick Borel, Geneviève Corraze, Maryse Nibbelink, Magali Chautan, Françoise Chanussot and Huguette Lafont* ... 838
In Vitro Assessment of Nystose as a Sugar Substitute. *Susanne C. Ziesenitz and Günther Siebert* ... 846

May, *continued*

Vitamins

A Study of Maternofetal Iron Transfer in the Riboflavin-Deficient Rat. *Hilary J. Powers* 852
Impaired Immunity in Vitamin A–Deficient Mice. *Susan M. Smith, Nina S. Levy and Colleen E. Hayes* 857
Determination of Folate Bioavailability with a Rat Bioassay. *Ana R. Abad and Jesse F. Gregory, III* 866
A Marginal Vitamin A Status Alters the Distribution of Vitamin A among Parenchymal and Stellate Cells in Rat Liver. *Ramiro O. Batres and James Allen Olson* 874

Minerals and Trace Elements

Mercaptans Decrease Selenium-Dependent Glutathione Peroxidase Activity in the Chick. *Steven D. Mercurio and Gerald F. Combs, Jr.* 880
Zinc Metabolism in Genetically Obese (*ob/ob*) Mice. *Martha L. Kennedy and Mark L. Failla* 886
Effect of Zinc and Copper Deficiency on Microsomal NADPH-Dependent Active Oxygen Generation in Rat Lung and Liver. *Jutta D. Hammermueller, Tammy M. Bray and William J. Bettger* 894
Altered High Density Lipoprotein Composition in Manganese-Deficient Sprague-Dawley and Wistar Rats. *Joyce Kawano, Denise M. Ney, Carl L. Keen and Barbara O. Schneeman* 902
Importance of Cereal Phytase Activity for Phytate Phosphorus Utilization by Growing Pigs Fed Diets Containing Triticale or Corn. *Alain Pointillart, Annie Fourdin and Nicole Fontaine* 907

Nutrient Interactions

Low Dietary Calcium Reduces 25-Hydroxycholecalciferol in Plasma. *Reinhold Vieth, Donald Fraser and Sang Whay Kooh* 914

Nutrient Uptake and Transport

Alfalfa Saponins Affect Site and Extent of Nutrient Digestion in Ruminants. *Christopher D. Lu and Neal A. Jorgensen* 919

Nutrient Requirements

Estimation of the Dietary Iron Requirement for the Weanling Puppy and Kitten. *Daniel G. Chausow and Gail L. Czarnecki-Maulden* 928

Growth, Development and Aging

Specific Effects of Weight Loss, Protein Deficiency and Energy Deprivation on the Water and Electrolyte Composition of Young Rats. *Marta L. Fiorotto, Hwai-Ping Sheng, Harlan J. Evans, Adrian D. Leblanc, Phillip C. Johnson and Buford L. Nichols* 933

Metabolism and Hormonal Regulation

Glucose Tolerance, Plasma Insulin and Immunoreactive Glucagon in Chickens Selected for High and Low Body Weight. *Nancy A. Sinsigalli, John P. McMurtry, Jerry A. Cherry and Paul B. Siegel* 941
Atropine-Nonsensitive Feedback Regulatory Mechanism of Rat Pancreatic Enzyme Secretion in Response to Food Protein Intake. *Tohru Fushiki, Shin-Ichi Fukuoka, Hideaki Kajiura and Kazuo Iwai* 948

Nutrition and Immunology

Lymphocyte Activation, Cell-Mediated Cytotoxicity and Their Relationship to Dietary Fat-Enhanced Mammary Tumorigenesis in C3H/OUJ Mice. *Lisa M. Olson, Steven K. Clinton, Jeffrey I. Everitt, Patricia V. Johnston and Willard J. Visek* 955

Nutrition, Pharmacology and Toxicology

Effects of Thiuram, Disulfiram and a Trace Element Mixture on the Incidence of Tibial Dyschondroplasia in Chickens. *Hardy M. Edwards, Jr.* 964
Chronic Treatment of Rats with Primidone Causes Depletion of Pteroylpentaglutamates in Liver. *G. F. Carl, Isao Eto and C. L. Krumdieck* 970

Nutrition and Behavior

Effects of Kappa Opiate Agonists, Cholecystokinin and Bombesin on Intake of Diets Varying in Carbohydrate-to-Fat Ratio in Rats. *Dale R. Romsos, Blake A. Gosnell, John E. Morley and Allen S. Levine* 976

Nutrition and Physical Activity

Exercise Attenuates Diet-Induced Arteriosclerosis in the Adult Rat. *C. M. Hasler, H. Rothenbacher, D. J. Mela and P. M. Kris-Etherton* 986

May, *continued*

BOOK REVIEWS

Nutrition, Aging and Health. Contemporary Issues in Clinical Nutrition. Eleanor A. Young, ed. *Reviewed by Lot B. Page* 994
Vitamin B-6: Its Role in Health and Disease (Current Topics in Nutrition and Disease, vol. 13). Robert D. Reynolds and James E. Leklem, eds. *Reviewed by Betty E. Haskell* 995
Hunger (Problems in the Behavioural Sciences). Jacques Le Magnen. *Reviewed by Thomas W. Castonguay* 996

LETTERS TO THE EDITOR

Should Vitamin A Intakes Be Two- to Fivefold Higher than Currently Recommended? *James Allen Olson* 998
Reply to the Letter of Dr. Olson. *D. M. Hegsted* 1000

Announcements

No. 6 JUNE 1987

CRITICAL REVIEW

Pharmacologic Role of Cysteine in Ameliorating or Exacerbating Mineral Toxicities. *David H. Baker and Gail L. Czarnecki-Maulden* 1003

ARTICLES

Lipids

Lipoprotein Lipases, Lipoproteins and Tissue Lipids in Rats Fed Fish Oil or Coconut Oil. *Anna Haug and Arne T. Høstmark* 1011

Proteins and Amino Acids

Effect of Sulfur Amino Acid Supplementation of Raw Soy Flour on the Growth and Pancreatic Weights of Rats. *Michael R. Gumbmann and Mendel Friedman* 1018
γ-Butyrobetaine Hydroxylase Activity is Not Rate-Limiting for Carnitine Biosynthesis in the Human Infant. *Ann Louise Olson and Charles J. Rebouche* 1024

Vitamins

Menaquinone Production and Utilization in Germ-Free Rats after Inoculation with Specific Organisms. *Carl Kindberg, J. W. Suttie, Kiyohisa Uchida, Kazumasa Hirauchi and Hiroyuki Nakao* 1032
Effect of Dietary Ascorbic Acid, Cholesterol and PCB on Cholesterol Concentrations in Serum and Liver in a Rat Mutant Unable to Synthesize Ascorbic Acid. *Fumihiko Horio, Kazuto Ozaki, Hiroaki Oda, Susumu Makino, Yoshiyuki Hayashi and Akira Yoshida* 1036
Effects of Maternal Dietary Restriction in Vitamin B-6 on Neocortex Development in Rats: B-6 Vitamer Concentrations, Volume and Cell Estimates. *Susan M. Groziak and Avanelle Kirksey* 1045

Minerals and Trace Elements

Responses to Excess Dietary Magnesium as Affected by Experimental *Eimeria acervulina* Infection or by Dietary Ammonium Chloride Ingestion in the Chick. *Carlos A. Giraldo, Daniel R. Brown, Kevin L. Watkins and L. Lee Southern* 1053
The Effect of Varying Dietary Zinc Levels on the Concentration and Localization of Zinc in Rat Bile-Pancreatic Fluid. *Nancy H. Reinstein, Bo Lönnerdal, Carl L. Keen, Barbara O. Schneeman and Lucille S. Hurley* 1060
Computer Simulation of Iron Absorption: Regulation of Mucosal and Systemic Iron Kinetics in Dogs. *Michael H. Nathanson and Gordon D. McLaren* 1067
Dietary Copper Deficiency Alters Protein and Lipid Composition of Murine Lymphocyte Plasma Membranes. *Joseph J. Korte and Joseph R. Prohaska* 1076
Effect of Copper Deficiency on Erythrocyte Membrane Proteins of Rats. *W. Thomas Johnson and Tim R. Kramer* 1085
Selenium Content and Distribution of Human, Cow and Goat Milk. *Bogdan Debski, M. F. Picciano and John A. Milner* 1091

June, *continued*

Nutrient Requirements

Isoleucine Requirement of Young Growing Male Guinea Pigs. *Linette Stelplugh Ayers, John T. Typpo and Gary F. Krause* 1098
Phenylalanine Requirements of Kittens and the Sparing Effect of Tyrosine. *J. M. Williams, J. G. Morris and Q. R. Rogers* 1102

Metabolism and Hormonal Regulation

Effect of Ascorbic Acid on Guinea Pig Adrenal Adenylate Cyclase Activity and Plasma Cortisol. *Nicholas L. Doulas, Andreas Constantopoulos and Basil Litsios* 1108
Effects of Adrenalectomy on Energy Balance in Obese (*ob/ob*) Mice Fed High Carbohydrate or High Fat Diets. *Colleen K. Grogan, Hye-Kyung Kim and Dale R. Romsos* 1115
Energy Balance in Rats with Obesity-Producing Hypothalamic Knife Cuts: Effects of Adrenalectomy. *Dale R. Romsos, Jerry G. Vander Tuig, Janos Kerner and Colleen K. Grogan* 1121

Nutrition and Immunology

Crucial Dietary Factors in Maximizing Life Span and Longevity in Autoimmune-Prone Mice. *Chiharu Kubo, B. Connor Johnson, Amar Gajjar and Robert A. Good* 1129
Influence of Extremes of Protein and Energy Intake on Survival of B/W Mice. *A. Gajjar, C. Kubo, B. C. Johnson and R. A. Good* 1136

Nutrition and Gene Expression

Low Protein–High Energy Diet Induces Repressed Transcription of Albumin mRNA in Rat Liver. *Keiko Sakuma, Tamami Ohyama, Kazuhiro Sogawa, Yoshiaki Fujii-Kuriyama and Yoshihiro Matsumura* 1141

Nutrition and Physical Activity

Modulation of the Exercise and Retirement Effects by Dietary Fat Intake in Hamsters. *Alan C. Tsai and Tzy-Wen Gong* 1149

BRIEF COMMUNICATION

Maternal Sodium Intake Does Not Affect Postprandial Sodium Concentrations in Human Milk. *Rochelle R. Ereman, Bo Lönnerdal and Kathryn G. Dewey* 1154

BOOK REVIEWS

Maternal Nutrition and Lactational Infertility. John Dobbing, ed.; Breast-Feeding and Fertility. M. Potts, S. Thapa and M. A. Herbertson, eds.. *Reviewed by Margaret C. Neville* 1158
Food and the Gut. J. O. Hunter and V. Alun Jones, eds.. *Reviewed by Kenneth Cox* 1160

LETTERS TO THE EDITOR

Similar Effects of Zinc Deficiency and Restricted Feeding on Plasma Lipids and Lipoproteins in Rats. *Sung I. Koo and Dale A. Williams* 1161
Reply to Letter of Drs. Koo and Williams. *Barbara O. Schneeman* 1163
NIH Consensus Conference on Obesity: by Whom and for What? *Paul Ernsberger* 1164
Reply to Letter of Dr. Ernsberger. *Jules Hirsch* 1166

SYMPOSIUM

Oxygen Consumption and Metabolite Flux of Bovine Portal-Drained Viscera and Liver. *Gerald B. Huntington and Christopher K. Reynolds* 1167
Hepatic Ketogenesis and Peripheral Ketone Body Utilization in the Ruminant. *Richard N. Heitmann, Dianne J. Dawes and Scott C. Sensenig* 1174
Relation between Metabolic Rate and Body Size in the Ovine Fetus. *Alan W. Bell, Frederick C. Battaglia and Giacomo Meschia* 1181
